

## The John Roan School Sixth Form

The best in everyone™

Part of United Learning

### Year 11 Bridging Work for Geography (A Level)

#### Complete Futures in Geography

Research potential careers based on Geography. Read the roles, responsibilities, skills and qualities needed for your chosen career.

Link: [What Can I Do With a Geography Degree?](#)

Time: 45 minutes

#### Read Cross Topic Themes: Climate Change

Climate Change is considered by many to be the planet's greatest threat. The Guardian have an excellent section on Climate Change which is frequently updated with articles and is well worth dipping into.

Link: [Climate Change – The Guardian](#)

Time: 1 hour

#### Listen Costing the earth: Climate Change

David Attenborough and film director James Cameron join Tom Heap to preview the 2015 Paris Climate Conference. Can the world's leaders come to an agreement on the warming planet?

Links: [David Attenborough](#)

Time: 30 minutes

#### Watch Climate Change: The Facts

After one of the hottest years on record, David Attenborough looks at climate change and potential solutions to this global threat. Explore recent extreme weather conditions such as unprecedented storms and wildfires. They also reveal what climate change could mean for both human populations and the natural world in the future

Link: [BBC Documentary](#)

Time: 1 hour

#### Complete 20 Questions and Facts

Create 20 questions that people could answer based on the BBC documentary – Climate Change: The Facts.

Create a fact file of 20 climate change impacts that you don't normally hear about

Link: [BBC Documentary](#)

Time: 30 minutes

#### Read Nature and our economy

Although the world's 7.9 billion people represent only 0.01% of all living things by weight, humanity has already caused the loss of 83% of all wild mammals and half of all plants. The current rate of extinction is tens to hundreds of times higher than the average over the past 10 million years – and it is accelerating

Link: [Climate Change – The Guardian](#)

Time: 1 hour

#### Listen Covid-19: The environmental impact

Listen as experts talk through the green issues emerging from the coronavirus pandemic and asks what the environmental legacy might be.

Links: [Covid-19](#)

Time: 30 minutes

#### Watch Water Wars

Water as a resource is easily the most fought over resource in world. Watch these two interesting videos that help shed a light on this further.

Link 1: [Pakistan's City with No Water](#)

Link 2: [The World's Dirtiest River](#)

Time: 25 minutes each

#### Read Water Wars

Read the following article from the World Economic Forum to better understand how water is becoming a source of global conflict and what they recommend we need to do about it.

Link: [World Economic Forum](#)

Time: 45 minutes

#### Complete Water Wars

Create for each of the 6 inhabited continents, research and create a fact files of one water conflict. This could be on an international scale or a regional scale.

Link: [Water Conflict Chronology](#)

Time: 1 hour

#### Complete Costing the Earth

Create your own podcast on a Geographical issue of your choice. Listen to some of the examples using the below link.

Link: [Costing the Earth Podcasts](#)

Time: 2 hours
